ME

Give me a prompt to make a movie poster from the sinopsis you gave me

Here's a detailed prompt for creating a movie poster based on the synopsis of *Shadows of Survival*:

Prompt for Movie Poster:

Design a gripping movie poster for *Shadows of Survival*. The poster should feature Maya, an 18-year-old girl with brown skin and deep brown eyes, standing confidently in a post-apocalyptic landscape filled with crumbling buildings and overgrown streets. Her dark hair, reaching her shoulders with golden tips, should catch the light as she grips a rusty metal bat, ready for action.

In the background, shadowy silhouettes of zombies can be seen lurking among the ruins, adding an

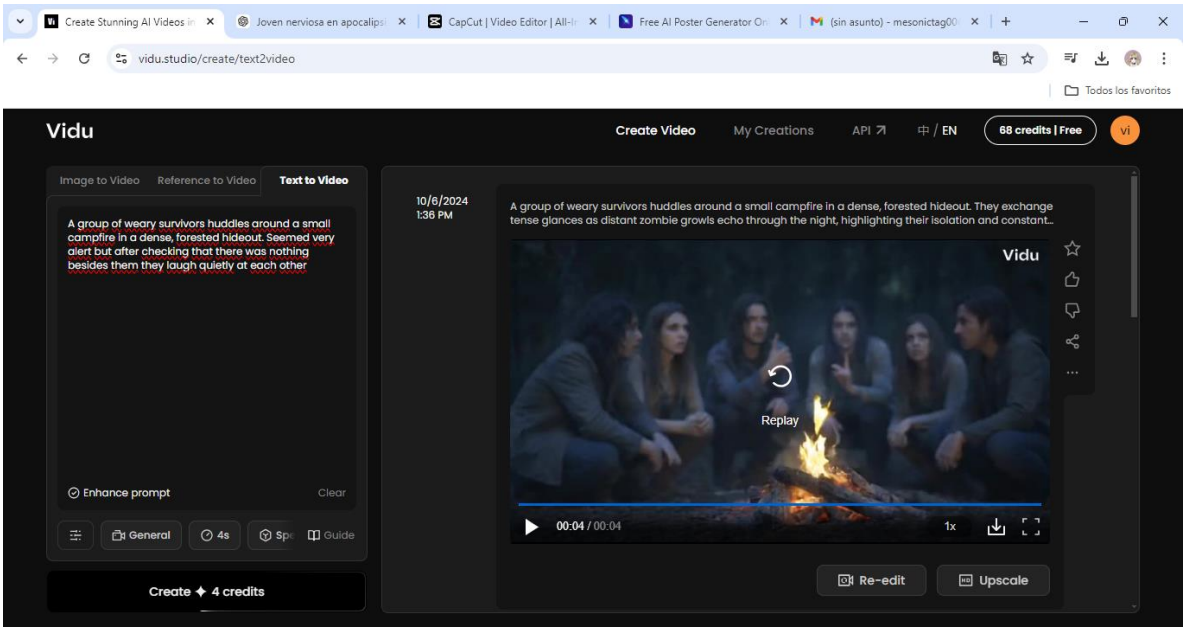
2. VIDEOS



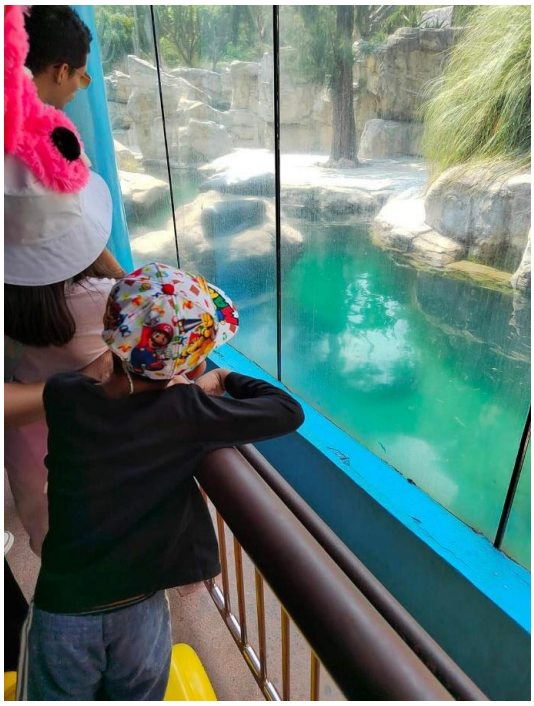
Use la aplicación llamada Vidu para hacer 18 videos cortos de 3 segundos cada uno, con la ayuda de Chat GPT para traducir los prompts para describir las escenas. Y demás, use fotos de mi vida para que Vidu las animara con la temática de zombies.

Prompt:

"In a small, cozy home, a young woman and her little brother are enjoying a quiet day together, laughing and sharing a moment of peace. Suddenly, they hear loud noises from outside, and when they look out the window, they see zombies advancing through their neighborhood. Realizing the danger, the young woman quickly takes charge, grabbing anything she can find to protect her brother and herself. They barricade the door and make a plan to survive the impending threat. As the zombies get closer, they work together to stay safe, using their quick thinking and resourcefulness. The scene is filled with tension but also moments of bravery and sibling bonding, as they face the zombies together and rely on each other for strength. Capture the mix of fear and determination as they navigate this unexpected nightmare."

Prompt:

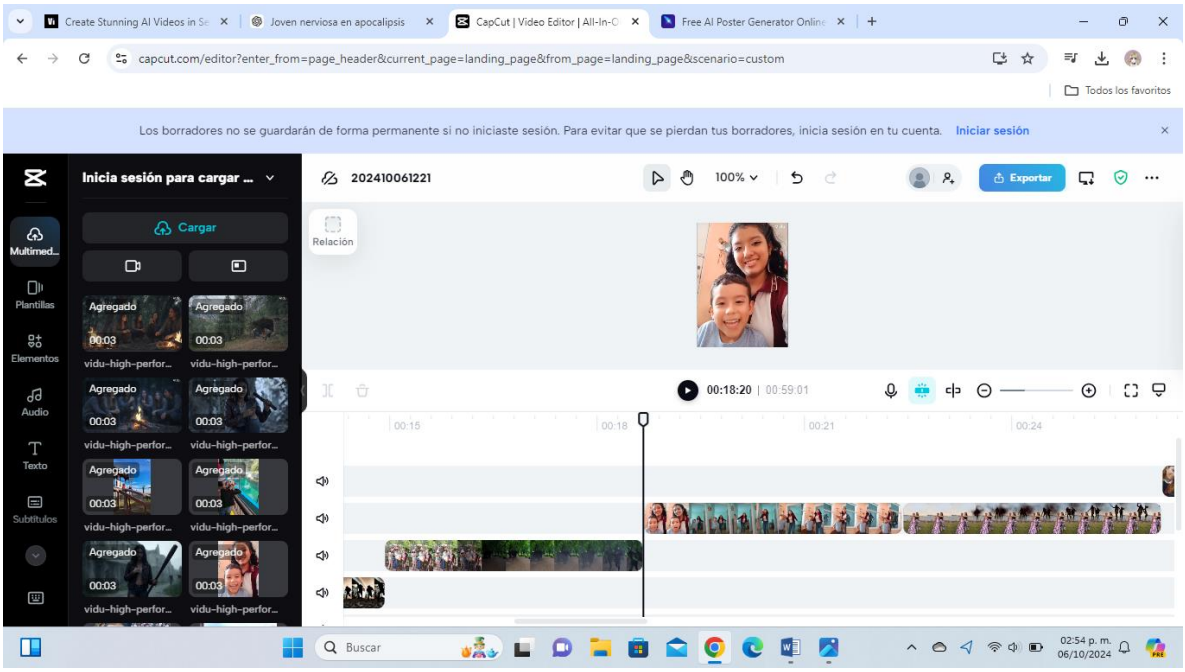
"A young child stands in awe before a large aquarium, gazing at the colorful fish swimming peacefully. The room is dimly lit, with blue light from the tank casting an ethereal glow on the child's face. Suddenly, the water in the aquarium ripples, and a massive, monster-like fish emerges from the shadows. Its sharp teeth and eerie glowing eyes make it look fearsome. The child takes a step back, eyes wide with surprise and fear. The fish lunges towards the glass, creating a loud thud, and the child stumbles back, captivated but scared. The scene blends wonder with a sudden sense of danger, as the child is mesmerized by the unexpected encounter."



Prompt 1 y 2

Después de añadir el texto y la imagen en el generador de videos IA Vidu, se juntaron en CapCut, aplicación de edición de video para que se hiciera un video de un minuto.

SO



Solamente se añadió una música de miedo, transiciones y el video quedo terminado.

Se anexo el video a la tarea directamente.
